
Trinity Community Care

Dental Office Partnership Program

**Your Dental Office
can make a
difference!**

Bring your staff to Trinity Community Care to treat patients in need and give back to the community!

Volunteering at Trinity offers:

- A professional and fully equipped dental office (all supplies provided)
- Certified Continuing Education Volunteer Credits
- A great Team Building Activity for your office
- Your partnership will help us to reach the many uninsured and underinsured people in our community that otherwise would not receive any treatment at all.
- Ask us about our new program which allows you to refer patients from your practice that cannot afford services at full cost.

To join us in carrying out our mission, please visit:
